

CROCHETED WILD ANIMALS

A collection of woolly friends
to make from scratch

Vanessa Mooncie

This amazing collection

of wild animals will spread smiles and draw cheers. Fourteen crochet patterns bring herds of wild animals right to your doorstep: try your hand at a fox or a frog, a cute owl, or a cuddly giraffe.

Basic crochet techniques are clearly explained, and offer all the know-how needed to stitch the whole herd—plus, the pages are packed with fun and educational facts about each animal.

Introduction

This colorful collection of crocheted animals is aimed at both adults and children. The projects featured are suitable for both adventurous beginners and advanced crafters and are all fun to crochet as an ideal keepsake or gift.

The projects are crocheted mainly in DK (CYCA 3) yarns; your choice of colors and textures can be varied to create a unique piece of work. The majority of the projects are worked in rounds or rows of single crochet; details such as markings and feathers are usually worked separately and may feature other crochet stitches.

The individual character of each animal is defined by its features. You can

make the animals as cute and friendly or as fierce and ferocious as you like, simply by changing the size and position of the eyes on the face.

Buttons and beads are used in some of the projects, but the eyes can be worked in French knots or crocheted discs instead if the animal is intended for babies or young children.

Many of the designs of these wild animals were inspired by illustrations found in old children's books. Starting off with just a couple of balls of yarn and a crochet hook, you can create a fascinating creature from scratch with a unique story of its very own.

Head

How to make Camel

The camel is worked in single crochet throughout. The body is crocheted in continuous rounds; the hump is shaped by increasing and then decreasing stitches over the length of the top of the back. The neck is continued from the body, but worked in rows rather than rounds. Increasing the center stitches and decreasing the stitches at the edges forms the curve in the neck. The head and the legs are crocheted in continuous rounds. The ears are made up of two identical pieces, each worked in rows and then joined by crocheting the last row of each piece together at the same time. The camel is finished with a tasseled tail and embroidered features.

Head

Starting at the tip of the nose, with C/2–D/3 hook and A, wind yarn around a finger a couple of times to form a ring, insert the hook, catch the yarn, and draw back through the ring.

Round 1: 1 ch (does not count as a st), work 6 sc into ring (6 sts).

Round 2 (inc): (2 sc in next sc) 6 times (12 sts). Pull on short end of yarn to close ring.

Round 3 (inc): (2 sc in next sc, 1 sc) 6 times (18 sts).

Outer ears (make 2)

With C/2–D/3 hook and A, make 7 ch.

Work rows 1–2 as for inner ears. Do not fasten off.

Join ear pieces

Place the wrong sides of the ear pieces together with the inner piece facing you. Using C/2–D/3 hook and yarn A, make 1 ch, join the inner and outer ear pieces by working 1 sc in each sc of both ear pieces at the same time, inserting the hook under both loops of each stitch. Fasten off, leaving a long length of yarn. Weave in the short ends.

Finishing

Body

Stuff the body firmly, filling it to the beginning of the neck shaping. Push the stuffing right into the end of the body and the hump. With the length of yarn left after fastening off, sew the edges of the neck shaping together, matching the rows, then stuff it right to the top of the opening. Stitch the head in position, sewing all around the neck to hold it firmly in place.

Legs

Stuff the legs firmly, filling them right up to the opening and keeping the base of the hooves flat. Stitch the front legs side by side, just before the shaping of the front of the body. Sew the hind legs next to each other with the straight side of the leg facing the back and the shaping going toward the front. Stitch all around each leg to hold them securely in place.

Ears

With the long length of yarn left, sew the lower edges of both ear pieces together to join. Bring the two corners at each side of the lower edge of the ear to the middle and stitch together to shape, with the inner piece on the inside. Sew in place to the head.

Head

Use an air-erasable fabric marker or a tailor's chalk pencil to lightly mark the outline of the eyes and the nostrils. With four strands of black embroidery thread, embroider the curved eye line in chain stitch and embroider five eyelashes in straight stitch. Embroider the nostrils in satin stitch, working just two or three stitches for each one.

Tassel 1

Tassel 2

Tail

To make the tasseled end of the tail, cut five 8 in (20cm) lengths of yarn A and fold the lengths in half to form a loop. Insert the crochet hook into the end of the tail and catch the looped yarn (see Tassel 1). Pull the loop a little way through, remove the hook and then thread the ends back through the loop, pulling them tight (see Tassel 2). Trim the ends and sew the tail in place at the end of the camel.

Apart from the tail, every part of this cute elephant is made entirely in rounds of single crochet. The tusks can be left out if preferred.

How to make Elephant

Each piece is worked in rounds. All the shaping is done by increasing and decreasing stitches. The head, tusks, body, and legs are stuffed and then stitched together. The ears are flattened and the open edge joined by working a single crochet into both stitches from each side at the same time. Alternatively, they can be sewn together by hand. The corner of each ear is turned and stitched down to shape before sewing to the head. The front and back legs are all made to the same pattern. The eyes are crocheted discs, while the tail is made from a crocheted cord with a tassel attached at the end.

Join edges

Flatten the shape, matching the stitches on both sides. With C/2–D/3 hook and A, make 1 ch (does not count as a st), insert the hook under both loops of the first stitch and under both loops of the stitch on the other side, work 1 sc to join the two stitches. Continue down the ear, working 1 sc into each of the 42 sc on both sides at the same time to join. Fasten off.

1 sc into second ch from hook, 1 sc into each of the next 14 ch (15 sts).

Next: 1 ch, sl st into both the back loop of the next sc and the reverse side of the ch at the same time to join and form a cord. Fasten off, leaving a long length of yarn. Weave in the short end.

Finishing

Body

Stuff the body, filling it to the last round of stitches. Use safety pins to hold the head in position. Using the length of yarn left after fastening off, sew the head in place to the neck, stitching all the way around and adding a little more stuffing if necessary to keep it firm.

Legs

Stuff the legs, filling them right up to the opening and keeping the base flat. Stitch the front legs side by side just before the front shaping and sew the back legs right behind them, grouping them close together so they touch. Stitch all around each leg to hold them securely in place.

Ears

Turn 1½in (4cm) over on one corner of the first ear and stitch it down along the long curved edge (see Ear). Repeat with the other ear, folding it at the opposite corner so they mirror each other. Sew the ears in place with the folded edge at the top, stitching around 2¾in (7cm) down and leaving the rest free.

Ear

Tusks

Stuff the tusks then flatten the top and sew the nine stitches from each side together to form a straight seam. Sew the tusks to the top of the trunk along the straight seam and a little way down the side of each tusk and into the trunk to keep it from swinging out. Sew the eyes neatly in place.

Tail

To make the tasseled end of the tail, cut four 4in (10cm) lengths of yarn A and fold the lengths in half to form a loop. Insert the crochet hook into the end of the tail and catch the looped yarn (see Tassel 1). Pull the loop a little way through, remove the hook and then thread the ends back through the loop, pulling them tight (see Tassel 2). Trim the ends and sew the tail in place at the end of the body, using the long length of yarn left after fastening off.

How to make Polar bear

Each piece in this project is worked in continuous rounds of single crochet. All of the shaping is formed by increasing and decreasing stitches. The back legs are crocheted so they slope, whereas the front legs are worked straight, but will slope in the same direction when stitched to the shaping at the front of the body. The ears are crocheted spheres that are flattened and then stitched to create the shaping. The tail is worked in rounds and flattened before attaching to the body. The bear is finished with a crocheted nose and embroidered eyes.

ICE AND CLEAN
Polar bears like to keep clean, so after a snack they'll usually wash by taking a swim or rolling in the snow.

DID YOU KNOW?

Paw pads with rough surfaces help prevent polar bears from slipping up on the ice. Because that would be so embarrassing!

Finishing

Body and legs

Stuff the legs, filling them right up to the opening and keeping the base flat. Stitch the front legs to the body side by side, just over the first few rounds of the front shaping, so they naturally slope with the contour of the body. Sew the hind legs in place with the slope in the legs facing toward the rear end. Stitch all around each leg to hold them securely in place.

Ears

Flatten each ear and, with the long length of yarn left, sew each side together to join. Bring the two corners at the lower edge of the ear to the middle and stitch them together to form a bowl shape. Run a gathering stitch around the lower edge of the ear, draw up and secure with a few stitches before sewing in place to each side of the head.

Tail

Flatten the tail and sew the 5 sc on each side together to join using the long length of yarn left after fastening off. Stitch in place at the end of the polar bear.

Eyes

Use the length of yarn left after fastening off the nose to sew it neatly into position at the end of the face. Then mark the position of the eyes on the bear with an air-erasable fabric marker or a tailor's chalk pencil. Use the black DK yarn to embroider the eyes in stem stitch.

The yarn used for this project is quite thick and, with the smaller hook, creates a firm, dense fabric. An E/4 hook can be used instead, although this will affect the gauge and the finished size of the deer.

How to make Deer

The head is worked in continuous rounds with the face shaped by increasing the stitches under the nose. The body is started in rounds and then finished in rows to shape the front. Stitches are picked up around the opening left after finishing the body shaping to form the neck. The legs are all made in continuous rounds, with the hind legs shaped by increasing the stitches at the front and decreasing at the back. The ears and tail are each worked in two pieces in rows; the pieces are then crocheted together. The crocheted eye pieces are worked in rows with the shaping formed by increasing the stitches and working the longer half

DID YOU KNOW?
Deer have their eyes on
the sides of their head, so
they can see if predators
are sneaking up on them.

Finishing

Body

Stuff the body firmly, filling it right to the top of the neck opening. Sew the head in place with the sloped shaping in yarn B positioned so it is under the chin, the shorter part being above the nose.

Legs

Stuff the legs firmly right up to the opening and keeping the base of the hooves flat. Stitch the front legs side by side, just behind the front shaping of the body. Sew the hind legs next to each other with the bend in the leg facing toward the back. Stitch all around each leg to hold them securely in place.

Ears

With the long length of yarn left, sew the lower edges of the inner and outer ear pieces together to join. Bring the two corners at each side of the lower edge of the ear to the middle and stitch together to shape, with the inner piece on the inside. Run a gathering stitch around the lower edge of the ear, draw up and secure with a few stitches before sewing in place on the head.

Tail

Stitch the tail in place at the rear of the deer. Sew the markings on the deer's back.

Eyes

Sew the crocheted eye pieces neatly in place using the lengths of yarn left after fastening off, lining the straight edge of the eye up against the last round in yarn B of the face. With three strands of black embroidery thread, work three eyelashes on each eye in straight stitch starting at the center of the lower edge and finishing at the curved outer edge of yarn B. Sew the buttons on for the eyes.

Nose

With yarn C, embroider the nose in satin stitch, working over rounds 2 and 3 of the head at the top front of the face. Weave in all the ends.

DID YOU KNOW?

Fawns are protected by a lack of scent so their enemies cannot smell them.

Worked mainly in rounds of single crochet stitches, this foxy fellow looks very smart in his orange coat, white bib, and black socks. His beady eyes can be replaced with embroidered French knots.

Head

How to make Fox

Single crochet is used for most of Fox except the bib, which incorporates half double and double stitches. Head, body, and eye patches are worked in continuous rounds of single crochet with shaping formed by increasing the stitches. The tail is shaped with extra stitches added on just one side, creating a different curved effect. Legs are straight tubes crocheted in continuous rounds. The ears are made in rows, turning the work instead of continuing around it. The features are embroidered, with beads for eyes.

Head

Starting at the nose, with C/2-D/3 hook and B, make 4 ch and join with a sl st to the first ch to form a ring.

Round 1: 1 ch (does not count as a st), work 6 sc into ring (6 sts).

Join and continue in A.

Round 2: Work 1 sc in each sc.

Round 3 (inc): (2 sc in next sc, 1 sc) 3 times (9 sts).

Round 4: Work 1 sc in each sc.

Round 5 (inc): (2 sc in next sc, 2 sc) 3 times (12 sts).

Round 6: Work 1 sc in each sc.

Round 7 (inc): (2 sc in next sc, 1 sc) 6 times (18 sts).

Bib

With C/2–D/3 hook and C, make 19 ch.

Round 1: 1 sc into second ch from hook, 1 sc in next 16 ch, 3 sc in end ch, 1 sc in reverse side of each ch to end (37 sts).

Round 2 (inc): 2 ch, 1 sc in next 8 sc, 1 hdc in next 4 sc, 1 dc in next 4 sc, (2 dc in same st) 5 times, 1 dc in next 4 sc, 1 hdc in next 4 sc, 1 sc in next 8 sc (42 sts and one 2 ch sp).

Round 3 (inc): Work 3 sc in the 2 ch space, 1 sc in each of next 8 sc, 1 sc in each of next 4 hdc, 1 sc in each of next 4 dc, (2 sc in next sc) in each of next 10 dc, 1 sc in each of next 4 dc, 1 sc in each of next 4 hdc, 1 sc in next 8 sc (55 sts).

Sl st to next st and fasten off, leaving a long length of yarn.

Inner ears (make 2)

With C/2–D/3 hook and C, make 9 ch.

Row 1 (RS): 1 sc in second ch from hook, 1 sc in next 6 ch, 3 sc in next ch, 1 sc into each of reverse side of ch, turn (17 sts).

Row 2 (inc): 1 ch (does not count as a st), 1 sc in next 8 sc, 3 sc in next sc, 1 sc in next 8 sc, turn (19 sts).

Row 3 (inc): 1 ch (does not count as a st), 1 sc in next 9 sc, 3 sc in next sc, 1 sc in next 9 sc, turn (21 sts).

Row 4 (inc): 1 ch (does not count as a st), 1 sc in next 10 sc, 3 sc in next sc, 1 sc in next 10 sc (23 sts). Fasten off.

Outer ears (make 2)

With C/2–D/3 hook and A, make 9 ch and work as for inner ear.

Join ear pieces

Place the wrong sides of the ear pieces together with the inner piece facing you. Using C/2–D/3 hook and yarn A, join the inner and outer ear pieces by working 1 sc in each of the next 11 sc of both ear pieces at the same time, inserting the hook under both loops of each stitch, 3 sc into the next sc of both pieces at the same time to shape the pointed tip of the ear, 1 sc in each of the next 11 sc of both ear pieces at the same time. Fasten off, leaving a long length. Weave in the short ends.

Legs

Back legs (make 2)

With C/2-D/3 hook and B, make 4 ch and join with a sl st to form a ring.

Round 1: 1 ch (does not count as a st), work 6 sc into ring (6 sts).

Round 2 (inc): (2 sc in next sc) 6 times (12 sts).

Next: Work 1 sc in each sc until leg measures 4in (10cm).

Join and continue with yarn A.

Next: Work 1 sc in each sc until leg measures 8½in (22cm).

Sl st to next st and fasten off.

Front legs (make 2)

With C/2-D/3 hook and B, make 4 ch and join with a sl st to form a ring.

Work rounds 1-2 as for the back legs.

Next: Work 1 sc in each sc until leg measures 3½in (8cm).

Join and continue with yarn A.

Next: Work 1 sc in each sc until leg measures 7in (18cm).

Sl st to next st and fasten off.

Rounds 32–40: Work 1 sc in each sc. Sl st to next st and fasten off, leaving a long length of yarn.

Tail

DID YOU KNOW?
Foxes can reach speeds
of 30mph (48km/h).

Finishing

Head

Using a blunt-ended darning needle, weave the yarn through the last round of stitches of the head, then stuff firmly before drawing up the yarn to close the opening and stitch together to secure.

Eyes

Attach the eye patches to each side of the face, using the long length of A to sew around the outside of the shape and the length of C left to catch down the center of the circular patch with a few stitches. Embroider the eyelashes in straight stitch with three strands of black embroidery thread, then sew on the beads for the eyes. Alternatively, work a French knot for each eye.

Ears

With the long length of yarn left, sew the lower edges of the inner and outer ear pieces together to join them. Bring the two corners at each side of the lower edge of the ear to the middle and stitch together to shape, with the inner piece on the inside. Run a gathering stitch around the lower edge of the ear, draw up and secure with a few stitches before sewing in place on the head.

Body

Stuff the body firmly and use a darning needle to weave the length of yarn left at the end through the last round of stitches. Draw up to gather and sew a few stitches over each other to secure.

Bib

Use the length of yarn left at the end of the bib to sew it to the front of the body with the narrow end at the neck. Stitch the head to the body, sewing all around the neck to join securely and prevent it from flopping about.

Legs

Stuff the front and back legs. Stitch the top end of each leg by squeezing it together and sewing the stitches from each side to form a straight seam. Sew the seam at the top of the front legs in place along the neckline and the back legs to the lower end of the body.

Tail

Stuff the tail. Join the seam at the top as for the legs so it is straight; stitch it vertically to the back of the fox so it can swing from side to side.

This cheeky chap is crocheted in continuous rounds. His curly tail is shaped simply by increasing stitches on one side and decreasing on the other.

How to make Monkey

Monkey is of a similar style to Fox, with the body, bib, and legs made in the same way, so for charts see pages 52–59. Monkey is worked mainly in continuous rounds of single crochet, apart from the bib, which includes half double and double stitches. The pieces that form the face are crocheted separately and stitched on. The muzzle is stuffed to shape and the features are embroidered, with beads added for the eyes.

DID YOU KNOW?
Monkeys are most easily distinguished from apes by their tails—apes don't have any.

Ears

Outer ears (make 2)

With C/2–D/3 hook and A, make 4 ch and join with a sl st to the first ch to form a ring. Work rounds 1–4 as for the inner ears. Do not fasten off at the end.

Join ear pieces

Place the ear pieces together with the inner piece facing you. Using C/2–D/3 hook and yarn A, join the inner and outer ear pieces by working 1 sc in each of the next 24 sc of both pieces at the same time, inserting hook under both loops of each stitch. Sl st to next st and fasten off, leaving a long length. Weave in short ends.

Round 5: Sc2tog, 1 sc in next 3 sc, (2 sc in next sc) twice, 1 sc in next 3 sc, sc2tog.

This will put a curl in the tail. Repeat round 5 until the tail measures around 8 in (20 cm).

Sl st to next st and fasten off, leaving a long length of yarn.

Tail

Finishing

Head

Using a blunt-ended darning needle, weave the yarn through the last round of stitches of the head, then stuff firmly before drawing up the yarn to close the opening and stitch together to secure.

Face

Sew the circular-shaped top of the face using the long length of A, positioning it above the center, toward the top of the head. Use the long length of yarn left after fastening off the muzzle to stitch it over the top of the face and toward the bottom of the head. It might help to pin it in position first. Leave a small opening and push some stuffing through to shape the muzzle before stitching it down. Embroider the eyelashes in straight stitch with three strands of black embroidery thread, then sew the beads on for the eyes. Alternatively, work a French knot for each eye. Embroider the nostrils in satin stitch, using three strands of embroidery thread and working just two or three stitches for each one.

Ears

With the long length of yarn left, sew the ears in place on each side of the head, stitching well in front and behind the ear to keep them firmly in place.

Body

Stuff the body firmly. Use a darning needle to weave the length of yarn left at the end through the last round of stitches, draw up to gather and work a few stitches over each other to fasten off.

Bib

Use the length of yarn left at the end of the bib to sew it to the front of the body with the narrow end at the neck. Stitch the head to the body, sewing all around the neck to join securely and prevent it from flopping about.

Arms/Legs

Stuff the arms and legs. Stitch the top end of each limb by squeezing it together and sewing the stitches from each side to form a straight seam. Sew the seam at the top of the arms in place along the neckline and stitch the legs to the lower end of the body.

Tail

Stuff the tail, keeping the curly shape. Join the seam at the top as for the arms and legs so it is straight, then stitch it vertically to the back of the monkey so it can swing from side to side.

The pattern on the snake's body is produced by working into consecutive rows, but it can be crocheted in stripes for a more simple design. This snake is so long, it would make a great draft stopper!

Snake

GULP!

Snakes have flexible jaws, which allow them to swallow prey bigger than their heads. This makes being a snake dentist a hazardous job.

How to make Snake

The jaw and mouth are crocheted in pieces and joined to form the finished head. The body starts at the tail; this is increased gradually, working in continuous rounds of single crochet with the pattern forming the snakeskin. The body is stuffed as the work grows in length. The neck is shaped by decreasing stitches and the head is sewn on to the open end. The tongue is made in rows of single crochet and slip stitch and sewn into the mouth. Beads for eyes finish the features.

Make one more piece to match the first.

Back of head

Back of head

With right side facing, C/2–D/3 hook and A, work 18 sc evenly across the straight edge of the first jaw piece and continue across the second jaw piece to join (36 sts). The following is worked in rounds:

Round 1 (inc): 1 sc into the first sc to join the other ends of each jaw piece, 1 sc into each of the next 35 sc.

Rounds 2–4: Work 1 sc in each sc.

Shape back of head

Round 5 (dec): (Sc2tog, 2 sc) 9 times (27 sts).

Round 6: Work 1 sc in each sc.

Round 7 (dec): (Sc2tog, 1 sc) 9 times (18 sts).

Round 8: Work 1 sc in each sc.

Round 9 (dec): (Sc2tog, 1 sc) 6 times (12 sts).

Sl st to the next st and fasten off, leaving a long length of yarn at the end.

Mouth

With C/2–D/3 hook and DK yarn in pink, make two pieces as for the jaw, working rows 1–6 only.

Next: With right sides together, stitch along the straight edges to join.

Attach mouth

Attach mouth

With C/2–D/3 hook and A, join the yarn to the pink mouth at the edge of the seam just stitched. With wrong sides together, match the stitches of both the mouth and jaw pieces. Insert the hook under both loops of the first sc of the mouth first, then under both loops of the first sc of the jaw and work 1 sc to join the two stitches. Continue in this way, working together each of the 68 sc from both pieces at the same time, being sure to insert the hook into a single crochet of the mouth first and then the jaw. Fasten off.

Body

Starting at the tail end, with C/2-D/3 hook and A, wind yarn around a finger a few times to form a ring, insert the hook, catch the yarn and draw back through the ring.

Round 1: 1 ch (does not count as a st), work 6 sc into ring (6 sts).

Round 2: Work 1 sc in each sc.

Round 3 (inc): (2 sc in next sc, 1 sc) 3 times. Pull on short end to close the ring (9 sts).

Pattern

Note: As the stitches are made by missing rows, the loop on the hook should be extended up to the level of the row being worked. Join the next color by inserting the hook into the next sc, then catch A and draw back through the stitch (2 loops on hook), catch B and draw through both loops on the hook.

Round 1: With B, (1 sc into the next sc, 1 sc into the next sc 1 row down, 1 sc into the next sc 2 rows down, 1 sc into the next sc 3 rows down, 1 sc into the next sc 2 rows down, 1 sc into the next sc 1 row down) 5 times.

Rounds 2–4: Work 1 sc into each sc. Finish the last round 1 st before the first sc on round 1 of the pattern.

Join the next color by inserting the hook into the next sc, then catch yarn B and draw back through the stitch (2 loops on hook), catch yarn A and draw through both loops on the hook.

Round 5: With A, (1 sc into the next sc 3 rows down, 1 sc into the next sc 2 rows down, 1 sc into the next sc 1 row down, 1 sc into the next sc, 1 sc into the next sc 1 row down, 1 sc into the next sc 2 rows down) 5 times.

Rounds 6–8: Work 1 sc into each sc. Finish the last round 1 st before the first sc on round 5 of the pattern.

Join C in the same way as before.

Rounds 9–12: As rounds 1–4 in C.

Rounds 13–16: As rounds 5–8 in A. These 16 rounds form the pattern of the snake's body. Repeat these rounds 15 more times, then rounds 1–8 once more, finishing with yarn A.

Stuff the body as you work every 8–12 in (20–30cm), but not too firmly.

Finishing

Head

Stuff the head, filling the upper and lower jaw, but keeping the pink inside of the mouth flat. Thread the yarn length left after shaping the back of the head through the last round of stitches, gather up the opening and stitch to secure.

Body

Stuff the rest of the body, filling it right up to the edge of the neck. With the length of yarn left after fastening off, sew the body to the head, stitching all around the neck edge and adding a little extra stuffing if necessary before closing.

Tongue

Weave in the ends of the tongue. Using the length of yarn left at the beginning, stitch to the inside of the mouth to the center of the seam joining the two mouth pieces. Sew the beads in place for the eyes. Alternatively, embroider French knots using DK yarn in black for the eyes.

How to make Rabbit

The head, body, arms, and legs are worked in continuous rounds of single crochet. The ears are made in two pieces, both worked in rows of single crochet, but using a smaller hook for the inner ears. The fluffy tail is worked in a chain loop stitch. A pompom can be attached as an alternative to the crocheted tail. The features are embroidered in chain stitch, straight stitch, and cross stitch.

Inner ears (make 2)

With B/1–C/2 hook and B, make 24 ch.

Work rows 1–8 of outer ear. Fasten off.

Join ear pieces

Place the wrong sides of the ear pieces together with the inner piece facing you. Using C/2–D/3 hook and yarn A, join the inner and outer ear pieces by working 1 sc in each sc of both ear pieces at the same time, inserting the hook under both loops of each stitch. You will find the stitches of the inner ear a little tight as they were made using the smaller hook. Fasten off, leaving a long length. Weave in the short ends.

Tail

The loops will appear at the back of the fabric as you work. With C/2-D/3 hook and C, wind yarn around a finger a few times to form a ring, insert the hook, catch the yarn and draw back through the ring.

Finishing

Head

Stuff the head firmly with toy stuffing. Thread the yarn onto a needle and run a gathering stitch around the last round of stitches, draw up to close and fasten off.

Ears

Sew the lower edges of the inner and outer ear pieces together to join. Bring the two corners at each side of the lower edge of the ear to the middle and stitch together to shape, with the pink inner piece on the inside. Run a gathering stitch around the lower edge of the ear, draw up and secure with a few stitches before sewing in place on the head.

Body

Stuff the body firmly and run a gathering stitch around the last round of stitches. Draw up to close and fasten off. Sew the head in place on top of the body.

Arms

Stuff the arms, just enough to fill them but still keeping them soft. Thread the fastened-off length of yarn onto a needle, gather the opening and draw up to close. Attach an arm to each side of the rabbit, stitching it securely between the head and body.

Feet

Stuff the feet firmly, using a knitting needle or the end of a pencil to push the stuffing right into the end of the foot and the heel. Stuff the leg, a little less firmly, filling it to the top. Thread the fastened-off length of yarn onto a needle and run a gathering stitch around the last round of stitches, then draw up to close. Sew the legs to the base of the body, slightly off-center toward the front, working the stitches securely all around the top of the leg and into the body.

Tail

Stuff the tail, thread the fastened-off length of yarn onto a needle and run a line of stitches through the last round of single crochet. Draw up the stitches to close the open end. Sew the gathered end of the tail in position on the body.

Eyes

Mark the position of the eyes with an air-erasable fabric marker or tailor's chalk pencil. With four strands of black embroidery thread, embroider the curved eye line in chain stitch and three eyelashes in straight stitch. Embroider the nose in a large cross stitch.

How to make Lion

Each piece is worked in rounds of single crochet and stitched together to form the lion. The shaping is done by increasing and decreasing stitches. The mane and the tassel at the end of the tail are made of loops of chain stitches joined back into the work with a single crochet or slip stitch. The eyes are embroidered in French knots, but can be replaced with buttons or beads for an alternative finish.

KINGS OF COOL

Their eyes are six times more sensitive to light than ours. That's why they are often photographed wearing sunglasses.

Finishing

Body

Stuff the body firmly, filling it right to the top of the neck opening. Sew the head in place with the longer shaping at the front of the face positioned vertically, so it is long rather than wide.

Legs

Stuff the legs firmly right up to the opening and keeping the base of the paws flat. Sew the legs in place, with the paws facing forward. Stitch all around each leg to hold them securely in place.

Ears

Flatten each ear and, with the long length of yarn left, sew each side together to join, forming a straight edge. Bring the two corners at the lower edge of the ear to the

middle and stitch together to produce a bowl shape. Run a gathering stitch around the lower edge of the ear, draw up and secure with a few stitches before sewing in place to each side of the head.

Tail

Stitch the tail in place at the end of the lion.

Nose

Flatten the nose and, with the length of yarn left after fastening off, sew the stitches from each side to join, forming a straight edge. Neatly sew the nose to the face, aligning the straight edge with the last round of yarn B. With C doubled, work a French knot each side of the face for the eyes.

Mane

With C/2-D/3 hook and A, join the yarn under the chin into the 14th round of the head.

Next: Work 1 sc into the next st, make 12 ch and work 1 sc into the next st. This makes one 12 ch loop. Continue making the loops, working around the ears and covering every round to the back of the head and a little way down the neck and front shaping. The "fur" can be made fuller by adding a few more chain stitches to the loops. Finish by fluffing with fingers to style the mane.

lion

The sunny yellow and chocolate shades used here can be replaced with cream and reddish-brown yarns if you'd like to give a more natural coloring to this jolly giraffe.

Giraffe

DID YOU KNOW?

Giraffes are born with horn-like structures called ossicones on their heads. If there are tufts of hair on top then the giraffe is probably female.

How to make Giraffe

The pieces are all crocheted separately and stitched together. The head, body, legs, and ossicones (horns) are worked in continuous rounds. The front of the body is shaped by working in rows and decreasing the stitches at the center front. The ears are made in two pieces, worked in rows, and joined by crocheting them together. The tail is a crocheted cord with a small tassel added to the tip. Small crocheted squares form the markings, which are sewn over the back of the body and neck. Embroidered eyes and nostrils complete the giraffe.

Round 2 (inc): *(1 sc, 2 ch, 1 sc) in next sc, 1 sc in next sc; rep from * a further 3 times, sl st to first sc and fasten off, leaving a long length of yarn.

Finishing

Body

Stuff the body firmly, filling it right to the top of the neck opening. Use a knitting needle or the end of a pencil to push the stuffing to the end of the body. Sew the head in place with the sloped shaping positioned so it is under the chin, with the flatter side at the top.

Legs

Stuff the legs firmly, filling them right up to the opening and keeping the base of the hooves flat. Stitch the front legs side by side, just a few rows back from the front of the body. Sew the hind legs next to each other with the bend in the leg facing toward the back. Stitch all around each leg to hold them securely in place.

Ears

With the long length of yarn left, sew the lower edges of the inner and outer ear pieces together to join. Bring the two corners at each side of the lower edge of the ear to the middle and stitch together to shape, with the inner piece on the inside. Run a gathering stitch around the lower edge of the ear, draw up and secure with a few stitches before sewing in place to each side of the head.

Ossicones

Use the end of the crochet hook to push a tiny amount of stuffing into the ossicones to help keep them upright and sew them onto the head in between the ears.

Tassel 1

Tassel 2

Tail

To make the tasseled end of the tail, cut four 4in (10cm) lengths of yarn B and fold the lengths in half to form a loop. Insert the crochet hook into the end of the tail and catch the looped yarn (see 1). Pull the loop a little way through, remove the hook and then thread the ends back through the loop, pulling them tight (see 2). Trim the ends and sew the tail in place at the end of the giraffe.

Markings

Sew the markings on the back and neck of the giraffe.

Head

Use an air-erasable fabric marker or a tailor's chalk pencil to lightly mark the outline of the eyes and the nostrils. With four strands of brown embroidery thread, embroider the curved eye line in chain stitch and five eyelashes in straight stitch. Embroider the nostrils in satin stitch, working just two or three stitches for each one.

Rounds 1–24

How to make Owl

The body is crocheted in one piece in rounds, starting with a length of chain stitches. A scalloped edge is crocheted in to separate the head from the feathery body, which is formed by a pattern of five doubles worked into one stitch and a single crochet in the next. The wings are semicircular in shape, worked in rows of single crochet. The eyes are made from rounds of double and chain stitches; the beak is worked in rounds of single crochet, which is then folded and stuffed before being attached to the face. The cone-shaped feet are formed in rounds of single crochet. After stuffing them, two rows of back stitch are worked through all the layers to create the shaping.

DID YOU KNOW?
Owls can't move their eyes very much, so they turn their entire head to see in a different direction instead.

Finishing

Head and body

Push the stuffing right into the corners at the top of the head before filling the rest of the body so it is firmly stuffed. Thread the length of yarn left at the end onto a blunt-ended darning needle and weave through the last round of stitches, draw up to close the opening and fasten off. Weave in the ends. Flatten the base of the owl so it can sit easily on its own.

Wings

Use the length of yarn left after fastening off the wings to sew the straight edge of each one to the sides of the owl's body, stitching them down to the first round in yarn B so the joins are hidden beneath the scalloped edging of the head.

Eyes

Sew the eyes to the face just above the scalloped edge.

Feet

To finish each foot, bring the open edge of the last round to meet and sew the 10 stitches from both sides together to join, leaving a small opening to push some stuffing in before sewing it up. Weave in the ends. With the same shade of yarn, work two lines of back stitch through all the layers and over each round of crochet, starting from the heel and finishing at the wide front end to form a quilted effect that defines the shaping. Sew the feet to the base of the owl so they peep out from under the feathery body.

Beak

Fold the circular piece crocheted for the beak in half. With the length of yarn left after fastening off, sew the curved edges together, leaving a small opening to push a little stuffing through to fill the beak before closing. Stitch the beak in place in between the eyes with the curved side facing out, sewing all around it to secure it in position.

WHAT A HOOT

Unless they are hunting or feeding their young, owls are content just to take things easy.

Any combination of greens can be used to create this agile frog. Worked entirely in continuous rounds of single crochet, it makes a nice, bright, and simple project.

Frog

DID YOU KNOW?

Frogs are amphibians—they begin their lives in water as eggs and then tadpoles, then when they are fully developed they live mainly on land.

How to make Frog

The body is made in two halves, worked in continuous rounds of single crochet, forming a bowl shape that is joined by crocheting a round of stitches into both of them at the same time. The stitches create a ridge that forms the mouth of the frog. The eyes are made in the same way, with the ridge forming the edge of the eyelid. The legs are worked in continuous rounds to create a cone shape. Two cones make up each leg with the feet and toes attached. The arms are simple tubes, shaped at the hand, with the fingers stitched on. The limbs are attached to the body securely but keeping them pliable.

Body

Lower half

Starting at the center of the lower half of the body, with C/2–D/3 hook and B, make 4 ch and join with a sl st to the first ch to form a ring.

Round 1: 1 ch (does not count as a st), work 6 sc into ring (6 sts).

Round 2 (inc): (2 sc in same st) 6 times (12 sts).

Round 3 (inc): (2 sc in same st, 1 sc) 6 times (18 sts).

Round 4 (inc): (2 sc in same st, 2 sc) 6 times (24 sts).

Round 5 (inc): (2 sc in same st, 3 sc) 6 times (30 sts).

Round 6 (inc): (2 sc in same st, 4 sc) 6 times (36 sts).

9 sc) 6 times (66 sts).

Round 14: Work 1 sc in each sc.

Round 15 (inc): (2 sc in same st, 10 sc) 6 times (72 sts).

Rounds 16–20: Work 1 sc in each sc. Sl st to next st and fasten off.

Upper half

With C/2–D/3 hook and A, make 4 ch and join with a sl st to the first ch to form a ring.

Work rounds 1–20 as for the lower half. Sl st to next st and fasten off.

Join the two halves

Join yarn A to the end of the last round on the lower half crocheted in B. With C/2–D/3 hook and A, place the wrong sides (the insides) of each piece together, matching the stitches. Insert the hook under both loops of the first sc of the lower half and then under both loops of the first sc of the upper half and work 1 sc to join the two stitches. Continue in this way, working together each of the sc from both pieces at the same time, being sure to insert the hook into a single crochet of the lower half first and then the upper half. This will create a ridge that lays toward the

bottom half, forming the frog's mouth. Leave a small opening to stuff the body firmly before continuing to join the remaining stitches of the 72 sc on both pieces as before. Sl st to next st and fasten off. Weave in the ends.

Eyes (make 2)

Eyeballs

With C/2-D/3 hook and C, make 4 ch and join with a sl st to the first ch to form a ring.

Eye sockets

With C/2–D/3 hook and A, make 4 ch and join with a sl st to the first ch to form a ring. Work rounds 1–7 as for the eyeballs. Sl st to next st and fasten off.

Join eye pieces

Join yarn A to the end of the last round on the eyeball. With C/2–D/3 hook and A, place the wrong sides (the insides) of each piece together, matching the stitches. Insert the hook under both loops of the first sc of the eyeball and then under both loops of the first sc of the eyelid and work 1 sc to join the two stitches. Continue in this way, working together each of the sc from both pieces at the same time,

inserting the hook into a single crochet of the eyeball first and then the eyelid. This creates a ridge that gives the impression that the eyelid encases the eye. Leave a small opening to stuff the piece before continuing to join the remaining stitches of the 30 sc on both pieces as before. Sl st to next st and fasten off, leaving a long length of yarn. Weave in the short ends.

Finishing

Eyes

Use the length of yarn left after fastening off the pupils to sew them neatly to the center of each eyeball. Sew the eyes to the top of the head, stitching all around to hold them firmly in place.

Legs and arms

Stuff the leg pieces, pushing the stuffing firmly into the end, but filling it less near the opening so when the pieces are joined the leg can bend easily. Stuff the arms, fingers, feet, and toes. Squeeze the open end of each piece together and use the lengths of yarn left after fastening off to sew the stitches from each side together to form a straight edge. Stitch the straight end of three fingers to the straight edge of

each arm and sew three toes to each foot in the same way. Sew the straight seams of each leg piece together to form the knee joint. Stitch each foot to one end of each leg, sewing it securely but still allowing movement. Sew the other end of each leg together to join them before stitching them at the join to the center of the back of the frog's body, positioning them just under the ridge and stitching them so they are securely in place but can still move about. The legs should fall loosely when the frog is picked up and can be bent at each side of the frog when in a sitting position. Sew the arms to each side of the body, just under the ridge that forms the mouth. Weave in the ends.

SPRING TIME
Some frogs can jump up to 20 times their own body length in a single leap.
Wheeeeeeeee!

If you are substituting another yarn for this beautiful bird project, choose cotton instead of wool, as it is heavier so the feathers will hang much better.

Head Rounds 1–15

How to make Flamingo

The head and body are crocheted in one piece in a combination of rounds and rows. The beak and eyes are worked separately. The feathers are formed by crocheting a foundation of double crochet stitches and then working the next row around the posts of the doubles, rather than into the tops of the stitches as normal. The legs

are made in two pieces worked in continuous rounds. The open ends are sewn flat and joined so they can bend at the knee and body. The feet are made in continuous rounds that are then divided into three to form the toes and then stuffed and handstitched through the layers to enhance the shaping.

Sl st to next st and fasten off.

Join beak to head

With right side facing and C/2–D/3 hook, join B to round 16 of the head where the work was divided for the beak, at the inside edge next to the neck. Insert the hook under both loops of the first sc of the head and then under both loops of the first sc of the beak, making sure the beak is placed so it curves under, toward the neck, rather than out. Work a single crochet to join the two stitches. Continue in this way, working together each sc from both pieces at the same time, being sure to insert the hook into a stitch of the head first and then the beak, so the stitches will form a decorative ridge that will lie toward the top of the head. Alternatively, the beak can be sewn in place.

DID YOU KNOW?
Flamingos rest by standing on one leg. The “knee” of the flamingo is actually an ankle joint and the lower leg bends forward from there.

Fasten off. Dampen with cold water and reshape the work, pulling the feathers so they lay flat. Lay out and leave to dry.

DID YOU KNOW?
A flock of flamingos is aptly called a flamboyance.

Loose tail feathers

With E/4 hook and D, make 6 ch and join with a sl st to first ch to form a ring.

Next: *2 ch (to count as first dc), into ring work 1 dc, 2 tr, 2 dtr, 1 ch, 2 dtr, 2 tr, 1 dc, 3 ch, sl st into ring, make 10 ch, sl st into sixth ch from hook to form a ring. Rep from * until 5 feathers have been completed, omitting the 10 ch at the end. To finish, make 5 ch and fasten off, leaving a long length of yarn. Dampen the work as before, reshape and leave to dry.

DID YOU KNOW?
The word “flamingo” comes from the Spanish word “flamenco,” which means fire, and refers to the bright color of the birds’ feathers.

Finishing

Body

With the length of yarn left at the end of the body, run a gathering stitch around the opening, draw up to close and fasten off securely. Push the stuffing into the end of the body. Stuff the beak and head firmly, taking care to keep the curved shape of the beak. Neatly stitch the neck edges from the head end down to the body, matching the rows of stitches and leaving an opening of around 2in (5cm). Stuff the neck firmly, using a knitting needle or the end of a pencil to push the stuffing up the length to the top. Stitch another 1in (2.5cm) or so, leaving a small opening to push through the rest of the stuffing, firmly filling the chest and body of the bird, keeping a smooth and rounded shape. Close the seam and weave in the ends.

Eyes

Sew the eyes to each side of the face, butting the straight, lower edge of the eye against the edge of the beak and using the long lengths of white and pink yarn to stitch it neatly down. Work a French knot in B for the eyeball.

Feet

Stuff the feet lightly, pushing the stuffing through the openings at the toes. With the lengths of yarn left at the toes, run a gathering stitch around each opening, draw up to close and fasten off. Weave in the ends. With the same shade of yarn, work a simple running stitch through all the layers, starting from the heel and finishing in between each toe to form a quilted effect that defines the shaping.

Legs

Stuff the upper and lower legs firmly, using a long knitting needle or pencil to push the stuffing right to the ends and into the knee. Stitch the top end of the lower leg by squeezing it together and sewing the stitches from each side to form a straight seam. Do the same to join the stitches at the top of the upper leg. Sew the seam at the top of the lower leg to the knee so it faces the same way as the wide seam at the top of the upper leg. Position the top seam of the lower half of the leg so it sits centrally across the first couple of rounds of the knee. This will create a joint that will enable the leg to bend at the knee. Making sure the foot faces forward when the leg is bent at the knee joint, stitch the leg to the foot, sewing down all the stitches at the ankle. Sew the straight top end of the upper legs, positioning them next to each other around halfway down the underside of the body, with the feet facing toward the front of the flamingo.

Feathers

Use safety pins to temporarily attach the feathers in position over the flamingo, near the end of the body where the rows end and the rounds begin, after the neck shaping. You will see a difference in the texture of the fabric between the rows and rounds worked. Stitch in place across the last row of the feathers and work a few stitches further down the feathery tail and into the end of the body to hold it in place.

Thread the long length of yarn left after fastening off the loose tail feathers onto a needle and sew in place securely at the back of the work, between the two single end feathers, hanging from those stitched to the body. Weave in the yarn ends.

Just like a real one, this chameleon really can change color! He doesn't have pigmented skin cells to do it for him though, so you need to turn him inside out through his mouth (see far right). Any shades of yarn can be combined to make this interesting lizard.

How to make Chameleon

Each piece is made in two colorways. The eyes and legs are crocheted in rounds, while the head and body are worked in rows of single crochet. The ridges going over the head and down the back are produced by working a single crochet into the post of the previous ridged stitch. The front and back pieces of each color are joined together at the end with the tail, which is worked in rounds. The two colored body pieces are joined by crocheting into each stitch of both pieces at the same time. Batting is used to help smooth out the body as the legs and tail of one colorway fills the inside. The sides of the front and back of the body are crocheted together, leaving the mouth open so the chameleon can be turned inside out to change the color. Finally, the eyes and legs are stitched to the head and body.

Front (make 1 in A and 1 in B)

Lower jaw

With C/2–D/3 hook, make 16 ch.

Row 1: 1 sc into second ch from hook, 1 sc into next 13 ch, 2 sc in end ch, 1 sc down reverse side of each chain to end, turn (30 sts).

Row 2 (inc): 1 ch (does not count as a st), 14 sc, (2 sc in next sc) twice, 14 sc, turn (32 sts).

Row 3 (inc): 1 ch (does not count as a st), 15 sc, (2 sc in next sc) twice, 15 sc, turn (34 sts).

With C/2–D/3 hook, make 6 ch and join with a sl st to first ch to form a ring.

Round 1: 1 ch (does not count as a st), work 9 sc into ring (9 sts).

Round 2 (inc): (2 sc in next sc) 9 times (18 sts).

Rounds 3–5: Work 1 sc in each sc. Sl st to next st and fasten off, leaving a long length of yarn.

Front and back legs

Rounds 1-5

Front legs

(make 2 in A and 2 in B)

Starting at elbow, with B/1-C/2 hook, wind yarn around a finger to form ring, insert the hook, catch the yarn and draw back through the ring.

Round 1: 1 ch (does not count as a st), work 6 sc into ring (6 sts).

Round 2 (inc): (2 sc in next sc, 1 sc) 3 times. Pull on short end of yarn to close ring (9 sts).

Round 3 (inc): (2 sc in next sc, 2 sc) 3 times (12 sts).

Round 4 (inc): (2 sc in next sc, 3 sc) 3 times (15 sts).

Round 5 (inc): (2 sc in next sc, 2 sc) 5 times (20 sts).

Divide for upper and lower leg

Round 6: Work 1 sc into next 5 sc, turn and work 1 sc into the opposite 5 sc. Continue on these 10 sts for the lower part of the leg.

Rounds 7-25: Work 1 sc in each of the 10 sc.

Round 26 (inc): (2 sc in next sc, 4 sc) twice (12 sts).

Round 27 (inc): (2 sc in next sc, 2 sc) 4 times (16 sts).

Round 28: Work 1 sc into next 4 sc, turn and work 1 sc into the opposite 4 sc (8 sts).

Foot

Work 4 rounds of 1 sc in each of the 8 sc. Fasten off, leaving a length of yarn.

Rejoin yarn to the remaining 8 sts at the foot and work 5 rounds of 1 sc in each sc. Fasten off, leaving a length of yarn.

Stuff the lower leg and foot, using the end of the crochet hook to push the stuffing down, keeping them soft so they are flexible enough to be tucked back easily into the chameleon when it is turned inside out to change color.

Upper leg

Rejoin yarn to the remaining 10 sts of round 5 at the elbow and work 11 rounds of 1 sc in each sc. Fasten off, leaving a length of yarn at the end. Stuff the upper leg.

Joining the two colors

Back legs (make 2 in A and 2 in B)

Starting at the elbow, with B/1–C/2 hook, wind yarn around a finger a couple of times to form a ring, insert the hook, catch the yarn and draw back through the ring.

Next: Work rounds 1–28 as for front legs.

Foot

Work as for front legs.

Upper leg

Rejoin yarn to the remaining 10 sts of round 5 at the elbow and work 14 rounds of 1 sc in each sc. Sl st to next st and fasten off leaving a long length of yarn at the end. Stuff the upper leg.

ALL CHANGE!
Some chameleons can change in color in 20 seconds. Ours takes a little longer, as you have to turn him inside out.

Finishing

Stuff the tail, pushing it in through the narrow end with the crochet hook and filling it from the wider end as well. Keep it soft enough to roll up easily. Thread the length of yarn left after fastening off the tail onto a blunt-ended darning needle and thread through the last round of stitches, draw up to gather and stitch to secure. Curl the tail under at the end, stitching it down as you roll it for around the first 10in (25cm). Repeat for the other colored piece.

Join the two colored body pieces

Cut the batting to the shapes of the front and the back pieces excluding the tail and the casque. They don't have to be exact and a perfect fit. Lay out the back and front in A with wrong side facing up. Place the batting on the top and then lay the wrong side of the piece in B over the batting. Pin in place, matching the rows (see photograph at top of opposite page). Using C/2–D/3 hook and A, rejoin the yarn to the center of the top lip. With the body in yarn A facing you, work 1 sc into the stitches at the end of each row of both pieces at the same time to join. Insert the hook first into the body worked in A and then into the body worked in B and work down the 61 stitches of one side of the back to the tail, 37 sts down the front, work 1 sc into each of the 44 stitches of the lower jaw and then up the 37 stitches of the other side of the front and the 61 stitches of the other side of the back. Sl st into the first sc and fasten off. Weave in the ends. (240 sts.)

Cut triangular-shaped pieces of batting to fit inside each casque. Put a couple of folded pieces of batting together for each to help them stand and sew each side of the opening together in matching yarn to close.

Join front to back

Fold the body over, with yarn A facing out and B on the inside. Rejoin yarn A to the tail end and, with front facing, work 1 sc into each of the next 39 sc of both the front and back at the same time to join, inserting the hook under both loops of each stitch and finishing at the mouth. Continue working 1 sc into each of the next 44 sc of the top lip only and then join the other side of the body, working 1 sc into each of the next 39 sc of both the front and back at the same time to join as before. Fasten off. Rejoin yarn A to the remaining stitches on the lower lip and, with the inside of the mouth facing you, work 1 sc into each of the next 40 stitches. Change to B/1–C/2 hook and work 1 sc into each of the 44 sc around the top lip and then into the 40 sc around the lower lip. Sl st to the first sc, fasten off and weave in the ends.

Eyes

Push the eyeballs into each eye socket. With the length of yarn left after fastening off the eye socket, stitch the lower edges together. Stuff the eyes and sew in place to the head, stitching all around the lower edges to attach them securely.

Legs

With the lengths of yarn left after fastening off at the feet, run a gathering stitch through the last rounds at the openings, draw up to close and work a few stitches through to secure. Sew the legs in place, just above the line of single crochet that joins the front and back of the body, stitching all around the open end.

Changing color

To change the color of the chameleon, reach into the mouth and grasp hold of the tail inside. Carefully fold back the head, bringing the tail to the outside. Tuck in the legs that are going back into the body as it is turned right side out. Fold the mouth down and pull into shape.

Techniques

Getting started

When starting a project, read the list of materials required at the beginning of the pattern. This will give you the size of hook and amount of yarn, as well as other items that are needed to make each animal.

Gauge

Checking the gauge before starting a project is vital, as this will affect the size and look of the finished piece. The gauge is the number of rounds or rows and stitches per square inch or centimeter of crocheted fabric.

Using the same size hook and stitch that the gauge has been measured over in the pattern, work a sample of around 5in (12.5cm) and then smooth it out on a flat surface. Place a ruler horizontally across the work and mark 4in (10cm) with pins. Count the number of stitches between the pins, including half stitches. This will give you the gauge of stitches.

Stitches

Rounds/rows

Hooks

Sizes vary widely, from tiny hooks that produce a very fine stitch when used with threads, to oversized hooks for working with several strands of yarn at one time to create a bulky fabric. Using a larger or smaller hook will change the look of the fabric and will also affect the gauge and the amount of yarn required.

Needles

Blunt-ended darning or tapestry needles are used to sew the projects together. The rounded end will prevent any snagging and the large eye makes it easy to thread the needle with the thicker yarns. Embroidery needles come in several sizes and types. Two of them used in this book are the embroidery needle, which has a slightly elongated eye and a sharp point to go through the fabric; and the tapestry needle, which has a long eye and blunt end used for projects that do not pierce the fabric. Sewing needles also come in a variety of sizes and are used here for stitching buttons and beads to finish the features of some of the wild animals.

Substituting yarns

When substituting yarns, it is important to calculate the number of balls required by the number of yards or meters per ball rather than the weight of the yarn, as this varies according to the fiber. Gauge is also important. Work a gauge swatch in the yarn you wish to use before starting a project. Here is a list of the yarns used in the projects and the information that will help when substituting the yarn, including the gauge and a guide to the approximate hook size recommended by the manufacturers. **Note:** the manufacturers' suggestions on gauge and hook size listed here sometimes vary from those stated in the patterns. This may be, for example, to achieve a looser or denser crocheted fabric than is usually created with that yarn.

Gauge: 22 sts and 30 rows to 4in (10cm)
Hook size: USE/4 (UK9:3.5mm)

Polar Bear and Rabbit

Bergère de France Lima (or equivalent Sport weight yarn, CYCA 2), 80% wool, 20% alpaca (120yds/110m per 50g ball)
Gauge: 24 sts and 30 rows to 4in (10cm)
Hook size: USC/2–E/4 (UK11–9:3–3.5mm)

Reading charts

Each symbol on a chart represents a stitch, each round or horizontal row represents one round or row of crochet. For rounds of crochet, read the chart counterclockwise, starting at the center and working out to the last round on the chart.

Crochet stitches

Crochet is produced with one working loop on the hook—unlike knitting, where there are several or many stitches on the needle. Basic crochet stitches form various interesting patterns and fabrics when combined with each other and worked with different types of yarn.

Slip knot

Take the end of the yarn and form it into a ring. Holding it in place between thumb and forefinger, insert the hook through the ring, catch the long end that is attached to the ball, and draw it back through. Keeping the yarn looped on the hook, pull through until the loop closes around the hook, ensuring it is not tight. Pulling on the short end of yarn will loosen the knot; pulling on the long end will tighten it.

Holding the hook

Hold the hook as you would a pencil, bringing your middle finger forward to rest near the tip of the hook. This will help control the movement of the hook, while the fingers of your other hand will regulate the tension of the yarn. The hook should face you, pointing slightly downward. The motion of the hook and yarn should be free and even, not tight. This will come with practice.

Holding the yarn

To hold your work and control the tension, pass the yarn over the first two fingers of your left hand (right if you are left-handed), under the third finger, around the little finger, and let the yarn fall loosely to the ball. As you work, take the stitch you made between the thumb and forefinger of the same hand.

The hook is usually inserted through the top 2 loops of a stitch as you work, unless otherwise stated in a pattern. A different effect is produced when only the back loop of the stitch is picked up.

Chain (ch)

- 1 Pass the hook under and over the yarn that is held taut between the first and second fingers. This is called "yarn over" (yo). Draw the yarn through the loop on the hook. This makes one chain.
- 2 Repeat step 1 until you have as many chain stitches as required, keeping the thumb and forefinger of the left hand close to the hook.

Slip stitch (sl st)

Make a practice chain of 10.

Insert hook into first stitch, yrh, draw through both loops on hook. This forms 1 slip stitch.

Continue to end. This will give you 10 slip stitches (10 sts).

Single crochet (sc)

Make a practice chain of 17. Skip the first chain.

- 1 Insert hook from front into the next stitch, yarn over and draw back through the stitch (2 loops on hook).
- 2 Yarn over and draw through 2 loops (1 loop on hook). This makes one single crochet. Repeat steps 1 and 2 to end.

On the foundation chain of 17 stitches you should have 16 single crochet stitches (16 sts).

Next row

Turn the work so the reverse side faces you. Make 1 chain. This is the turning chain, which helps keep a neat edge and does not count as a stitch. Repeat steps 1 and 2 to the end of the row. Continue until the desired number of rows is complete. Fasten off.

Half double (hdc)

Make a practice chain of 17. Skip the first 2 chain (these count as the first half double stitch).

- 1 Yarn over, insert hook into the next st, yarn over and draw back through stitch (3 loops on hook).
- 2 Yarn over, draw through all 3 loops (1 loop on hook). This forms 1 half double (hdc). Repeat steps 1 and 2 to the end of the row.

Repeat steps 1 and 2 to the end of the row.

On the foundation chain of 17 stitches you should have 16 half double stitches (16 sts), including the 2 chain at the beginning of the row, which is counted as the first stitch.

Next row

Turn the work so the reverse side faces you. Make 2 chain to count as the first half double. Skip the first stitch of the previous row. Repeat steps 1 and 2 for the next 14 hdc of the last row, work 1 hdc in the second of the 2 chain at the end of the row. Continue until the desired number of rows is complete. Fasten off.

Double crochet (dc)

Make a practice chain of 18. Skip the first 3 chain (these count as the first double crochet stitch).

- 1 Yarn over, insert hook into the next stitch, yarn over and draw back through stitch (3 loops on hook).
- 2 Yarn over, draw through 2 loops (2 loops on hook).

- 3 Yarn over, draw through 2 loops (1 loop on hook). This forms 1 double crochet (dc). Repeat steps 1–3 to end of row.

On the foundation chain of 18 stitches you should have 16 double crochet stitches (16 sts), including the 3 chain at the beginning of the row, counted as the first stitch.

Next row

Turn the work so the reverse side faces you. Make 3 chain to count as the first double crochet. Skip the first stitch of the previous row. Repeat steps 1–3 to the end of the row, working 1 double crochet into the third of the 3 chain at the beginning of the last row. Continue until the desired number of rows is complete. Fasten off.

Treble (tr)

Make a practice chain of 19. Skip the first 4 chain (these count as the first treble stitch).

- 1 Yarn over twice, insert hook into the next stitch, yarn over and draw back through stitch (4 loops on hook).

- 2 (Yarn over, draw through 2 loops) three times (1 loop on hook). This forms 1 treble (tr).

Repeat steps 1 and 2 to end of row. On the foundation chain of 19 stitches you will have 16 trebles (16 sts), including the 4 chain at the start, counted as the first stitch.

Next row Turn the work so the reverse side faces you. Make 4 chain to count as the first tr. Skip the first stitch of the previous row. Repeat steps 1 and 2 to the end of the row. Continue until you have completed the desired number of rows. Fasten off.

Double treble (dtr)

Make a practice chain of 20. Skip the first 5 chain (these count as the first double treble stitch).

- 1 Yarn over three times, insert hook into the next stitch, yarn over and draw back through stitch (5 loops on hook).
- 2 (Yarn over, draw through 2 loops) four times (1 loop on hook). This forms 1 double treble (dtr).

Repeat steps 1 and 2 to end of the row. On the foundation chain of 20 sts you should have 16 double trebles (16 sts), including the 5 chain at the beginning of the row, counted as the first stitch.

Next row

Turn the work so the reverse side faces you. Make 5 chain to count as the first dtr. Skip the first stitch of the previous row. Repeat steps 1 and 2 in each stitch to the end of the row. Continue until you have completed the desired number of rows. Fasten off.

Joining in colors

When joining a new color in a continuous round, insert the hook into the first stitch of the next round, catch the yarn in the new color and draw through the stitch. Work the first stitch in the new color into the same place as the join.

Increasing

To increase one single crochet (2 sc in next st), half double (2 hdc in next st) or double crochet stitch (2 dc in next st), work two stitches into one stitch of the previous row. To increase two single crochet stitches (3 sc in next st), simply work three stitches into one stitch of the previous row.

Decreasing

To decrease one single crochet (sc2tog), insert the hook into the next stitch, yarn over and draw back through the stitch (2 loops on hook); insert the hook into the following stitch, yarn over and draw back through the stitch (3 loops on hook), yarn over and draw through all three loops on the hook.

Fastening off

When you have finished, fasten off by cutting the yarn around 4 $\frac{3}{4}$ in (12cm) from the work. Draw the loose end through the remaining loop, pulling it tightly.

Finishing touches

The animals begin to take shape when joining the seams and stuffing the crocheted pieces. However, it is the embroidery and stitching of the features that gives them an individual character that really brings them to life.

Seams

When stitching up your work, use clothespins or safety pins to hold the pieces together. Here are a couple of seams that can be used to finish off the crocheted projects.

Right side seam

This method produces a strong, flat, and invisible seam. It is used when joining pieces on the right side of the work, as for the neck of the Flamingo.

- 1 With wrong sides of the work together, attach the yarn to one piece of the work to be joined, insert the needle in from the back to the front of the other piece of the work, catching one loop of the edge stitch. Then insert the needle a little further along the same piece of the work, from the front to the back, and draw up the yarn tightly.
- 2 Insert the needle into the first piece of the work from the front to the back, catching one loop of the edge stitch as before. Then insert the needle a little further along the same edge from the back to the front of the work and draw up the yarn tightly. Continue in this way to the end.

Woven flat seam

This brings the edges of the seam together, creating a neat and flat finish. With right sides together and matching the stitches at the edge of the work, place a finger

between the two pieces to be joined. Insert the needle from the front to the back, through both pieces under the loops of the corresponding stitches at the edge of the work. Then insert the needle from the back to the front of both pieces, pulling the yarn through to draw the seam together. Work in and out of each stitch to the end.

Stuffing

Polyester stuffing is a synthetic fiber that is lightweight and washable. Pure wool stuffing is a lovely, natural fiber. Durable and soft, it can be washed by hand but cannot be machine-washed as it will shrink and felt. Kapok is a natural fiber with a soft, silky texture. It comes from a seedpod that is harvested from the Ceiba tree.

Before stuffing your wild animals, tease the fibers by pulling them apart with your fingers to make them light and fluffy. This will prevent the crocheted piece from looking lumpy. Use small amounts at a time and build up the filling. The blunt end of a knitting needle, crochet hook, or a pencil is useful for pushing the stuffing into hard-to-reach areas such as tails and legs.

Embroidery stitches

Many of the animals are finished off with embroidered details to create features and impart character. Here are some commonly used embroidery stitches.

French knot

- 1** Bring the thread through to the right side of the work at the desired position the French knot is to be made and hold it down with the left thumb. Wind the thread twice around the needle, still holding it firmly in place.
- 2** Insert the needle back into the work, close to the point where the thread first appeared. Pull the thread through to tighten the knot and bring the needle back through to the front of the work to start another French knot.

Chain stitch

Bring the thread through to the right side of the work at the position where the stitch is to be made and hold it down with your left thumb. Insert the needle where it first came out and bring it back through a little way from the last point, according to the length of the stitch you wish to make. Pull through, keeping the thread under the needle. Repeat to continue the chain.

Satin stitch

Work straight stitches side by side and close together across a shape. Take care to keep the stitches even and the edge neat. The finished result will look like satin.

Stem stitch

Start by making a tiny stitch. Work from left to right, bringing the needle through the outline to the center of the stitch. Keep the stitches small and the thread below the needle. The stitches are slightly slanted and work well on curved lines.

Straight stitch

This is a single stitch that can be worked in varying lengths. It is useful for embroidering short lines.

Cross stitch

- 1 Bring the needle through to the front of the work, then take the first stitch diagonally from right to left, bringing the needle back through in line with the point where the first stitch emerged.
- 2 Complete the cross stitch by inserting the needle back through the work in line with the top of the previous stitch, from right to left.

Pompoms

The rabbit's tail is crocheted incorporating loops of chain stitches. A fluffy pompom can be made as a simple alternative.

- 1 Cut two circles of cardboard to the required measurement for the pompom. Make a hole in the center of each circle. The hole should be around a third of the size of the finished pompom. Thread a blunt needle with a long length of doubled yarn and, with the two circles of cardboard together, wind the yarn through the hole and around the outer edge of the circle. Continue in this way, using new lengths of yarn until the hole is filled and the circle is covered.
- 2 Cut through the yarn around the outer edge between the two circles of cardboard. Tie a length of yarn securely around the middle, leaving long ends with which to attach the pompom. Remove the cardboard and trim the pompom, fluffing it into shape.

Back stitch

With right sides together, begin by working a couple of stitches over each other to secure the seam. Bring the needle through to the front of the work one stitch ahead of the last stitch made. Then insert the needle back through the work at the end of the last stitch. Repeat to complete the seam, making sure your stitches are neat and worked in a straight line.

Safety issues with babies and young children

Care should be taken if crocheting these projects for babies and children under three years of age. Do not use yarns that are prone to shedding loose fibers, and ensure that all seams are stitched securely. Buttons and beads should not be used for eyes. French knots can be embroidered on the snake, fox, and monkey instead. The buttons used for the eyes of the deer can be replaced with crocheted discs, which should be securely sewn in place.

To make 3/8in (1cm)-diameter eye

Using Sport-weight yarn and B/1–C/2 hook, wind yarn around a finger a couple of times to form a ring, insert the hook, catch the yarn and draw back through the ring.

Next: Work 6 sc into the ring. Sl st to next st and fasten off. Pull on short end of yarn to close ring. Sew in place to the face of the crocheted animal.

About the author

Vanessa Mooncie is a contemporary crochet jewelry designer and maker, silkscreen artist, and illustrator. She spent many happy hours as a child learning to crochet and knit with her mother and grandmother. She went on to study fashion and textile design, then became a children's wear designer, illustrator, and commercial interior designer. She lives with her family in the English countryside.

Acknowledgments

I would like to thank Jonathan Bailey for giving me the great opportunity to do *Crocheted Wild Animals*. Thank you to Wendy McAngus for all your patience and support, and many thanks to the editor, Nicola Hodgson, and to all at GMC. For their continuous encouragement, I thank my husband Damian, my daughters Miriam, Dilys, Honey, and granddaughter Dolly, and a special thank you to my son, Flynn, who gave me the idea for the reversible chameleon, which I am particularly proud of!
